BEST hoverboard!!

Reviewed in the United States on August 15, 2018
Color: black **Verified Purchase**

We got this for our 13 yr old daughter! We love the app you can download on your smartphone. The app has a self balancing mode, adult mode, you can set the speed limit, change LED lights, shut the hoverboard down and a few other functions. We think it is a lot better than the others because of the rubber tires. My daughter even brings it in (after cleaning the tires) and rides it around on our hardwood floors with no damage to them. The speakers on it are great too!!

This was my first hover board wasn't sure how long it would take me to learn to ride it. After like 30 minutes of training on my own against a wall I was able to ride it with no problems.

The only thing I find bad about this hover board is that every time it starts up it makes a really loud starting indicator noise and says Bluetooth on which I wish I could switch off. Also sometimes when I get off and if it hits something it keeps beeping and won't stop until I power off and back on again.

Apart from these two things I think the hover board is pretty great.

Best Hoverboard on the market

Reviewed in the United States on September 12, 2018

Color: black **Verified Purchase**

This Hoverboard is absolutely the best on the market. Its fast and extremely sturdy. Made of quality materials. The Hoverboard is a bit pricey compared to the cheap plastic knockoffs, but you get what you pay for. Would purchase again and I definitely recommend this product.

P.s.

You can charge the battery from 0 to 100 real quick. Yeah under 3 hours and u get approx. 10 miles with a full charge.

Problems with Shaking and stopping

Reviewed in the United States on October 9, 2018

Color: red **Verified Purchase**

I bought 2 of these hover boards for Christmas during the Amazon customer appreciation event in July. In October the kids just couldn't wait any longer so I gave them their boards early while the weather was still nice. They loved them! However within a few hours of using them, one of the boards was shaking and stopping. My grandson has fallen off twice and injured himself because of this defect. I would love to give this 5 stars because it is well made and the kids love them. But the shaking and stopping is not safe and negates any Positive benefits. We have tried to contact seller but not successful yet.

Worth it!

Reviewed in the United States on August 3, 2018

Easy to use once you get the hang of it. Lights are awesome as is the sound system. Getting the app on an iPhone was a bit difficult. Self balancing feature nice. Functionality is bar none. Doesn't work too well on the grass, haven't tried on gravel. App works well, wish it could change to mph instead of kph.

Super fun!

Reviewed in the United States on August 9, 2018

Color: black **Verified Purchase**

Bought this because hubby was jealous of our boy's hover board. The higher weight capacity and off road tires are a huge selling point. Easier to ride than the smaller kid size, more stable feeling. Had an issue with the charging port but Gyroor took care of it no problem!

such a great hoverboard! very easy to ride even for a first-time rider and my kids just got on and within minutes they were zipping around the house. Great quality, cool lights give it that futuristic look and it seems to hold a charge for a long time. The tires are massive which gives the board a really good height, comfortable ride, and even riding outside on lawn is no problem. Highly recommended!

It just makes me think the quality control with this company is very poor. The instructions were very minimal

I bought two of these scooters for each of my sons. One worked and the other started acting strange after about 30 minutes of use. Then it would randomly turn off while riding and throw you off the board. This is on a full charge too. Extremely dangerous and sending back for a replacement. The other board seemed to have problems steering as you had to push down on the left side to make it go straight. It just makes me think the quality control with this company is very poor. The instructions were very minimal. The app would not work. Overall, I could not recommend purchasing these boards.

It won't stop shaking

Every time my kid gets on it shakes him off....Something is rattling inside the hoverboard and all of the sudden, the Bluetooth won't work on it. I'm so bummed because this was my kids only birthday present because of how expensive it was. Can I return even though it's banged up from shaking so much?

This hover board is just amazing and best gift!

It's a great hoverboard I highly recommend. Very fast delivery to our doorstep. When receiving the product, we found it was packed well with Gyroor brand box. I bought it for my boy as a birthday gift. He loves it so much and can not stop riding. Adapt to different road situation, good for indoor and outdoor riding, and the bluetooth performance is good. I like riding it also. Most impressive function is the self balancing function and kids mode. My boy can ride it easily. For kids and adults, highly recommend this off road hoverboard.
